

VIBIA

**light is creation**

VIBIA  
LIGHT IS CREATION

### **Light is creation**

Light creates, renders and gives life.  
Through light we perceive the landscape, architecture and the spaces we inhabit,  
stimulating our senses and perceptions.

Each of us possesses a unique identity, a personal point of view  
and a subjective way of perceiving reality.

VIBIA aims to create solutions that adapt to the needs of people within diverse contexts.  
Our mission is to improve the relationships between people and their surroundings,  
their visual and emotional well being.

When designing spaces lighting becomes an integral element within the process  
in terms of the architecture, interior design and use.  
Through our lighting we want to help create the right atmosphere so that the experience  
of living every space is a fulfilled and unique one.

### **Collaboration**

We look after the professionals who "create spaces", imagining with them and sharing their concerns.  
We like to be in close contact with the day-to-day reality of designers in order to come  
up with the right solutions which are sometimes unexpected.

We become the close allies of lighting designers, architects, interior designers and artists  
through the creative process of lighting design, a shared mission for improved living.  
We hope that our proposed products stimulate inspiration, helping to surprise,  
going far beyond to explore new horizons ...

### **The Vibia experience**

We offer a unique collection of products and solutions that stimulate  
lighting professionals and help generate spaces.  
The experience is developed through [vibia.com](http://vibia.com), a virtual space where users can be fully  
connected to create and share inspiration, get information easily and efficiently  
working with a permanent back-up team.

Our online tools bring products and spaces together,  
making design easier and creating a system that treats light and lighting as a tangible  
quantity in space, that can be moulded to project-based needs and desires.

And of course people always first, with the guarantee of a close personal relationship with our  
local team offering back-up over the entire work process.  
We endeavour to provide an honest, friendly and efficient service.

### **Vibia, our own ecosystem**

We are evolving our own bespoke model where we try to foster and bring talent together,  
within an organization where creativity and innovation are an attitude that questions the established,  
constantly searching for new and better concepts.

Within the VIBIA ecosystem we like to listen, to understand and to help, share doubts and imagine  
spaces and lived environments, providing the best unique solutions.

We live for the exciting challenge of developing top-class products  
and supporting and engaging with a global community.

### **Light is creation**

La luz crea, modela y da vida.

A través de la luz percibimos el paisaje, la arquitectura y los espacios que habitamos, estimulando nuestros sentidos y percepciones.

Cada uno de nosotros dispone de una identidad propia, una mirada única y una manera subjetiva de percibir la realidad.

VIBIA tiene la vocación de crear soluciones que se adapten a las necesidades de las personas en diversos contextos.

Nuestra misión es mejorar la interacción de las personas con su entorno y su bienestar visual y emocional.

Durante el proceso de diseño de un espacio, la iluminación se convierte en elemento transversal a su arquitectura, interiorismo y uso.

Con nuestras luminarias queremos contribuir a generar la atmósfera adecuada para que la experiencia de vivir cada espacio sea plena y única.

### **Colaboración**

Acompañamos a los profesionales "creadores de espacios", imaginando con ellos y compartiendo sensibilidades. Nos gusta estar atentos a las realidades de las personas para proponer soluciones adecuadas y muchas veces no esperadas.

Somos cómplices del proceso creativo de diseñadores de iluminación, arquitectos, interioristas y artistas, en la misión compartida de crear espacios donde se viva mejor.

Deseamos que nuestra propuesta de productos estimule su inspiración, contribuyendo a sorprender, a ir más allá, a explorar en nuevos límites.

### **The Vibia experience**

Ofrecemos una propuesta única de productos y soluciones, estimulante para los profesionales de la iluminación y de la creación de espacios.

La experiencia se prolonga en [vibia.com](#), espacio que permite estar permanentemente conectados para generar y compartir inspiración, obtener información de manera fácil y eficiente y estar en comunicación permanente.

Nuestras herramientas online integran productos y espacios, facilitan el trabajo y forman un sistema capaz de ayudarnos a utilizar la luz y las luminarias como una magnitud modelable en el espacio, que se ajuste a las necesidades y deseos del proyecto.

Y por supuesto, las personas lo primero, siempre con el compromiso de una relación personal cercana a través de nuestros equipos locales y ofreciendo el acompañamiento que se requiera durante todo el proceso. Procuramos una manera de trabajar genuina, amable y eficiente.

### **Vibia, un ecosistema propio**

Vamos configurando un modelo propio, donde procuramos que conviva y se expanda el talento, en una organización donde la creatividad y la innovación son una actitud que cuestiona lo establecido y busca permanentemente aportar nuevos conceptos y mejoras.

En el ecosistema Vibia, nos gusta escuchar, entender y atender, compartir inquietudes e imaginar espacios y entornos habitados, proporcionando soluciones óptimas y únicas.

### **Light is creation**

Das Licht kreiert, modelliert und verschafft Leben.

Durch das Licht nehmen wir die Landschaft, die Architektur und die Lebensräume wahr, wodurch unsere Empfindungen und Wahrnehmungen stimuliert werden.

Jeder einzelne von uns verfügt über eine eigene Identität, einen einzigartigen Blick und eine subjektive Art und Weise, die Realität wahrzunehmen.

VIBIA hat die Berufung, Lösungen zu schaffen, die sich den Notwendigkeiten der Menschen unter verschiedenenartigen Umständen anpassen. Unsere Mission besteht darin, die Wechselbeziehung der Menschen zu ihrer Umgebung und ihr visuelles und emotionelles Wohlbefinden zu verbessern.

Während des Prozesses des Entwurfs eines Raumes verwandelt sich die Beleuchtung in das transversale Element seiner Architektur, seiner Innendekoration und seiner Nutzung. Mit unseren Leuchtkörpern wollen wir dazu beitragen, die angemessene Atmosphäre zu erzeugen, damit die Erfahrung jeden Raum zu erleben voll und einzigartig ausfällt.

### **Zusammenarbeit**

Wir begleiten die „raumschaffenden“ Fachleute, indem wir uns zusammen mit ihnen Dinge vorstellen und Sensibilitäten teilen. Wir möchten den Personen gegenüber aufmerksam sein, um angebrachte aber oftmals nicht erwartete Lösungen vorzuschlagen.

Wir sind Komplizen des kreativen Prozesses von Leuchtdesignern, Architekten, Innendekorateuren und Künstlern, mit der mit ihnen geteilten Mission, Räume zu schaffen, in denen man besser lebt.

Wir wünschen, dass unser Produktvorschlag Ihre Inspiration stimuliert und dazu beiträgt, zu überraschen, weiter fortzuschreiten und neue Grenzen zu erforschen.

### **The Vibia experience**

Wir bieten ein einzigartiges Angebot von Produkten und Lösungen an, das Fachleute der Beleuchtung und der Kreation von Räumen stimuliert. Die Erfahrung wird erweitert durch "[vibia.com](#)", eine Web-Site, die uns erlaubt, ununterbrochen angeschlossen zu sein, um Inspirationen zu schaffen und sie zu teilen, wobei auf einfache und wirksame Weise Informationen eingeholt werden und permanent eine Kommunikation aufrecht erhalten wird.

Unsere Online-Werkzeuge integrieren Produkte und Räume, erleichtern die Arbeit und bilden ein System, mit dem wir das Licht und die Beleuchtung wie ein im Raum zu modellierendes Element einsetzen können, das sich den Notwendigkeiten und Wünschen des Projektes anpasst.

Und selbstverständlich, an erster Stelle die Personen, immer mit dem Engagement einer persönlichen nahen Beziehung mit Hilfe unserer lokalen Teams und mit dem Angebot der Zusammenarbeit, die während des gesamten Prozesses erwünscht ist. Wir versuchen eine authentische, liebenswürdige und effiziente Arbeitsweise zu beschaffen.

### **Vibia, ein eigenes Ökosystem**

Wir gestalten ein eigenes Modell, bei dem wir versuchen, dass das Talent mit uns zusammenlebt und sich in einer Organisation ausbreitet, in der die Kreativität und die Innovation eine Einstellung wiedergibt, die das Festgelegte in Frage stellt und permanent danach sucht, neue Konzepte und Verbesserungen zu erbringen.

Beim Ökosystem Vibia, haben wir Gefallen daran, zuzuhören, zu verstehen und Beachtung zu zeigen, Interessen zu teilen und uns Räume sowie bewohnte Umgebungen vorzustellen, die optimale und einzigartige Lösungen bereit stellen.

Wir leben für die hinreißende Herausforderung, Produkte erster Klasse zu entwickeln und eine globale Gemeinschaft zu unterstützen und zu engagieren.

## **Light is creation**

La luce crea, modella e dà vita.

Attraverso la luce avvertiamo il paesaggio, l'architettura e gli spazi in cui abitiamo, e stimoliamo i nostri sensi e le nostre percezioni.

Ognuno di noi ha un'identità propria, uno sguardo unico e una maniera soggettiva di percepire la realtà.

La vocazione di VIBIA è di sviluppare soluzioni adeguate alle esigenze delle persone in contesti diversi.

La nostra missione è di perfezionare l'interazione che le persone hanno con il proprio ambiente e il proprio benessere visivo ed emotivo.

Nel processo di progettazione di uno spazio, l'illuminazione diventa un elemento trasversale alla relativa architettura, arredamento interno ed uso. Con le nostre lampade desideriamo contribuire a creare l'atmosfera ideale, affinché vivere ogni spazio sia un'esperienza completa ed unica.

## **Collaborazione**

Accompagniamo i professionisti "creatori di spazi", immaginiamo insieme a loro e condividiamo le reciproche sensibilità.

Ci piace prestare attenzione alla realtà delle persone, per poter proporre soluzioni adeguate e, sovente, inaspettate.

Siamo complici del processo creativo di designer di illuminazione, architetti, interior designer ed artisti, nella missione condivisa di creare spazi in cui vivere meglio.

Desideriamo che la nostra proposta di prodotti stimoli l'ispirazione, contribuendo a sorprendere, a spingersi oltre e ad esplorare nuovi orizzonti.

## **The Vibia experience**

Offriamo una proposta unica di prodotti e soluzioni, stimolante per i professionisti dell'illuminazione e della creazione di spazi. L'esperienza continua su [vibia.com](http://vibia.com) uno spazio che ci consente di essere costantemente collegati per generare e condividere ispirazione, ottenere informazioni in modo facile ed efficiente, ed essere sempre in contatto.

I nostri strumenti online integrano prodotti e spazi, agevolano il lavoro e costituiscono un sistema in grado di aiutarci a utilizzare la luce e le lampade come una magnitudine modellabile nello spazio, in modo da adeguarsi alle necessità ed ai fini del progetto.

E, ovviamente, le persone sono prioritarie, sempre con l'impegno di un rapporto personale stretto attraverso i nostri team locali e fornendo l'assistenza necessaria nel corso dell'intero progetto.

Offriamo un modo di lavorare genuino, cortese ed efficiente.

## **Vibia, un ecosistema proprio**

Il nostro modello gode di una configurazione propria, in cui cerchiamo di far convivere ed ampliare il talento, in un'organizzazione in cui creatività e innovazione sono un atteggiamento che mette in discussione quanto prestabilito e cerca continuamente di apportare nuovi concetti e migliori.

Nell'ecosistema Vibia, ci piace ascoltare, capire e risolvere, condividere dubbi ed immaginare spazi ed ambienti abitati, proponendo soluzioni ottimali ed uniche.

We live for the thrilling challenge of developing top-class products and supporting and engage to a global community.

(Viviamo per l'emozionante sfida di sviluppare prodotti di prima classe e di offrire supporto e impegno a una comunità globale)

## **Light is creation**

La luce crée, façonne et donne la vie.

C'est à travers la lumière que nous percevons le paysage, l'architecture et les espaces que nous habitons. C'est elle qui stimule nos sens et nos perceptions.

Chacun de nous a sa propre identité, son regard personnel sur les choses et une perception subjective de la réalité.

VIBIA a pour vocation d'apporter des solutions qui s'adaptent aux besoins de chacun, et ce dans différents contextes. Nous souhaitons améliorer l'interaction entre les individus et leur environnement, en contribuant à leur bien-être visuel et émotionnel.

Dans toute conception d'espace, l'éclairage constitue un élément transversal de l'architecture, de l'aménagement intérieur et de l'usage qui en sera fait.

À travers les luminaires que nous proposons, nous entendons contribuer à créer l'atmosphère idéale, pour que l'expérience vécue au sein de chaque espace soit à la fois riche et singulière.

## **Collaboration**

Nous accompagnons les professionnels "créateurs d'espaces" en imaginant avec eux, dans un souci de partage des sensibilités.

Nous sommes attentifs aux réalités des individus afin de proposer des solutions adéquates qui se révèlent, bien souvent, inespérées.

Nous nous faisons complices du processus de création des concepteurs lumière, des architectes, des architectes d'intérieur et des artistes, animés, comme eux, du désir de créer des espaces où l'on puisse vivre mieux. Nous souhaitons que les gammes de produits que nous proposons stimulent leur inspiration, pour ainsi contribuer à surprendre, à repousser les limites, à explorer de nouveaux horizons.

## **The Vibia experience**

Nous offrons une gamme de produits et de solutions unique, apte à stimuler l'imagination des professionnels de l'éclairage et de la création d'espaces. L'expérience se prolonge sur le site [vibia.com](http://vibia.com), un espace qui nous permet d'être connectés en permanence pour susciter et partager l'inspiration, fournir facilement et efficacement les informations nécessaires et rester constamment en communication.

Ces outils online présentent des produits et des espaces, facilitent le travail et forment un dispositif qui aide à utiliser lumière et luminaires comme des éléments d'envergure modelables dans l'espace, en les adaptant aux besoins et à l'esprit du projet.

Et puisque l'essentiel ce sont bien évidemment les individus, nous nous engageons à entretenir une relation personnalisée de proximité par le biais de nos équipes locales en fournissant, tout au long du projet, l'accompagnement nécessaire.

Nous défendons des échanges professionnels authentiques, agréables et efficaces.

## **Vibia: tout un écosystème en soi**

Nous construisons peu à peu notre propre modèle au sein duquel nous souhaitons voir cohabiter les talents et les encourager, où créativité et innovation constituent les fondements mêmes d'une attitude qui questionne les acquis, à la recherche constante d'améliorations et de nouveaux concepts.

Au sein de l'écosystème Vibia, nous aimons écouter, comprendre et répondre, partager les réflexions et imaginer des espaces et des lieux de vie, en apportant des solutions optimales et singulières.

Notre raison d'être : relever le défi passionnant de créer des produits d'excellence, en défendant la communauté d'idées au sein de laquelle nous sommes engagés.

Composing Light,  
Spreading The Light,  
Soft Creation...

**Composing Light**  
The opportunity of composing light in space, adapting to the unique requirements of each environment and the people who inhabit them, creating evocative ambiances charged with sensuality.

The notes and the silences, like light and shade form part of this subtle yet complex language that defines these compositions.

**Spreading The Light**  
The light source is integrated with the product, adapting to its surrounding dimensions like liquid light, form and function freely expressed.

**Soft Creation**  
Algorithms that help us identify the axioms which through logic help to order the chaos, establishing relationships between product and space, geometry, position in space and movement.

# Cosmos

Design by Lievore, Altherr, Molina.

Cosmos creates an optical illusion, a spatial illusion, an illusion of otherness based on a series of opaque objects that provide the gift of perfect light.

Delicate Gesture,  
Furniture Meets Light,  
My Refuge...

### Delicate Gesture

Delicacy and subtlety can be distinguished in an attitude towards design, through the elegance of a gesture, a lighting effect or the transparency of a shadow.

Furniture Meets Light  
Elements of furniture items that integrate light, thus creating a new product category.  
The designs adapt to their double function and encourage an interaction with users.

My Refuge  
An evolution of the most universal concepts, those which have survived the natural selection process and remain with us. Products designed to improve the intimate spaces we inhabit and to update tradition within interior design.

## **Table**

Updating Legacy,  
Smooth Touch,  
Delicate Sense...

**Updating Legacy**  
Combining progress with the most authentic and essential values; showing respect for the best from the past, a reinterpretation within a contemporary context with a view to the future.

**Smooth Touch**  
The surprise of contrasting perceptions, like how hard can be smooth or the solidity of the subtle and the sensations that are given off unconsciously through touch and sight.

**Delicate Sense**  
Amiable products, born with a sensibility and finesse at the moment of conception present throughout their development, values that are passed on to the spaces they light. The delicacy that is innate through their conceptual, formal, material and functional expression.

## **Ceiling**

Community of Lights,  
Volume Modulation,  
Skylights...

**Community of Lights**  
With the combination of practical elements personalised compositions can be achieved, communities of lights that merge their photometric power through a single luminous creation.

**Volume Modulation**  
There is no light without shadow, both phenomenon construct and modulate, generate volume and delimit space. The different grades of opacity and texture help us to interpret the context and exist within its constituent elements.

**Skylights**  
The way natural light enters a building represents a meeting of man-made construction and the natural world; how to reproduce the same effect and sensation, capturing the sky within indoors spaces.

**8205.**  
Built-in / Empotrado.

The symmetrical version of Domo is suitable for lighting transit areas such as corridors, entrance halls and the like, in which constant repetition of the light fitting is necessary to guide traffic through them.

La versión simétrica de Domo es adecuada para iluminar zonas de paso como pasillos, recibidores... en las que es necesaria la repetición continua de la luminaria para orientar el paso y la circulación.

### Domo - Adjustable light

The adjustable version allows a rotation of 180° to direct the light at the features you wish to highlight. Surface mounted or built into the ceiling, this model allows you to bathe walls or to light pictures, sculptures or dressing rooms, blending into the architecture of any kind of room.

### Domo - Luz orientable

La versión orientable permite girar la pieza 180° y dirigir la luz hacia aquellos elementos que queremos acentuar. Instalada en superficie o empotrada en el techo, este modelo permite bañar paredes, iluminar cuadros, esculturas, vestidores... integrándose en la arquitectura de cualquier tipo de espacio.

## Funnel

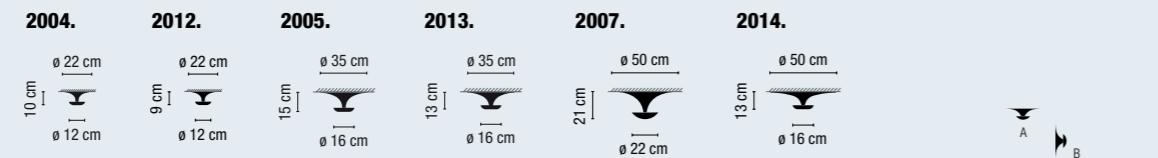

Material, light and space integrated within a light fitting.  
The perfect equation for an unsurpassable result.

# **Wall**

Wall Arts,  
Reading Intimacy,  
Pattern Generation,  
Light & Shadows Compositions...

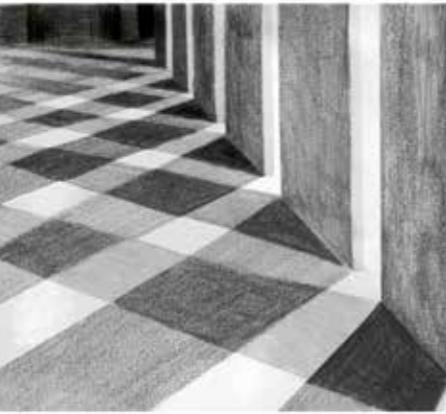

### Wall Arts

Walls are the best canvas and light a luminous palette with which to draw, paint and sculpt its vertical planes.

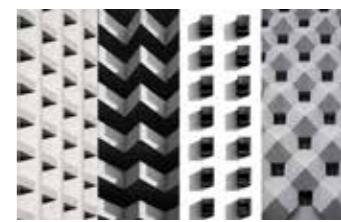

### Reading Intimacy

The pleasure of enjoying the intimacy of a good read under an inspirational light.

### Light & Shadows

Compositions  
Artificial light sources allow us to set time. Define and control shadows, at times becoming an extension of the product's lighting effect at others reminders of the natural world brought indoors.

### Pattern Generation

Patterns and rhythm generated from product compositions and their visual effects, shadows, reflection, tones, textures, subtleties....

## **Outdoor**

Landscape Integration,  
Living the Outdoors...

#### Landscape Integration

Points of light are integrated through formal and functional lighting relationships, becoming part of the overall plan where everything has a *raison d'être*.

#### Living the Outdoors

Outdoor spaces become the backdrops where our lives are lived in the company of our peers, spaces where our future is played out day by day, places of socialise, places to rest.

Outdoors designed for Living. Light fittings providing warm, uplifting and natural ambiences, which invite spending time outdoors, evenings spent in good company at any time of the year.

# Halley

Design by Jordi Vilardell & Meritxell Vidal.

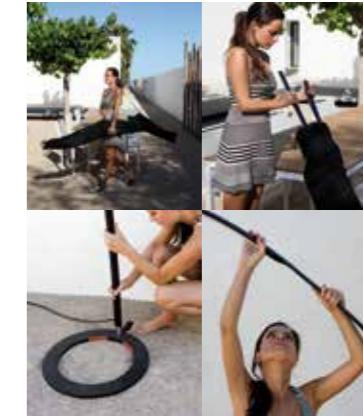

Halley's light is like a new comet passing over head: its arched beam generates a sculptural light cutting through the night to create a magical, warm and inviting atmosphere.

4150 04.

4150 04.

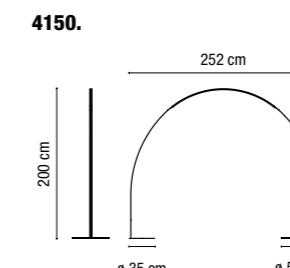

## Easy assembly in any place

HALLEY is easy to move, assemble and disassemble, allowing it to be placed anywhere in a fast and simple way you want, with adjustable brightness.

## Instalar fácilmente en cualquier rincón

HALLEY es de fácil transporte, montaje y desmontaje, permitiendo su instalación en cualquier rincón de forma rápida y sencilla.

Polycarbonate diffuser / Difusor de policarbonato.

## Wall Arts

With only two designs you can create artistic layouts on the wall.  
With a single power connection point and no need for insetting you can create whatever light murals you want, with adjustable brightness.

## Wall Arts

Con sólo dos diseños pueden crearse configuraciones artísticas en la pared. Con un único punto de conexión eléctrica y sin necesidad de empotramiento, se pueden crear los murales luminosos que se deseé, de intensidad lumínica regulable.

**Create your product configuration quickly and easily at [vibia.com](#)**

Go to [vibia.com](#) and discover the quickest, most efficient way to configure a unique lighting mural with Origami.

**Crea tu configuración de producto rápido y fácil en [vibia.com](#)**

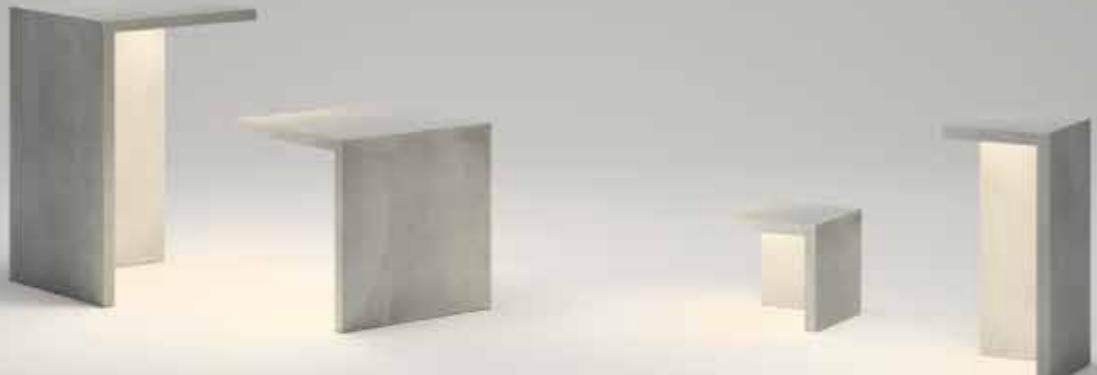

Entra en [vibia.com](#) y descubre la manera más rápida y eficiente de configurar un mural lumínico único con Origami.

# Empty

Design by Xuclà.

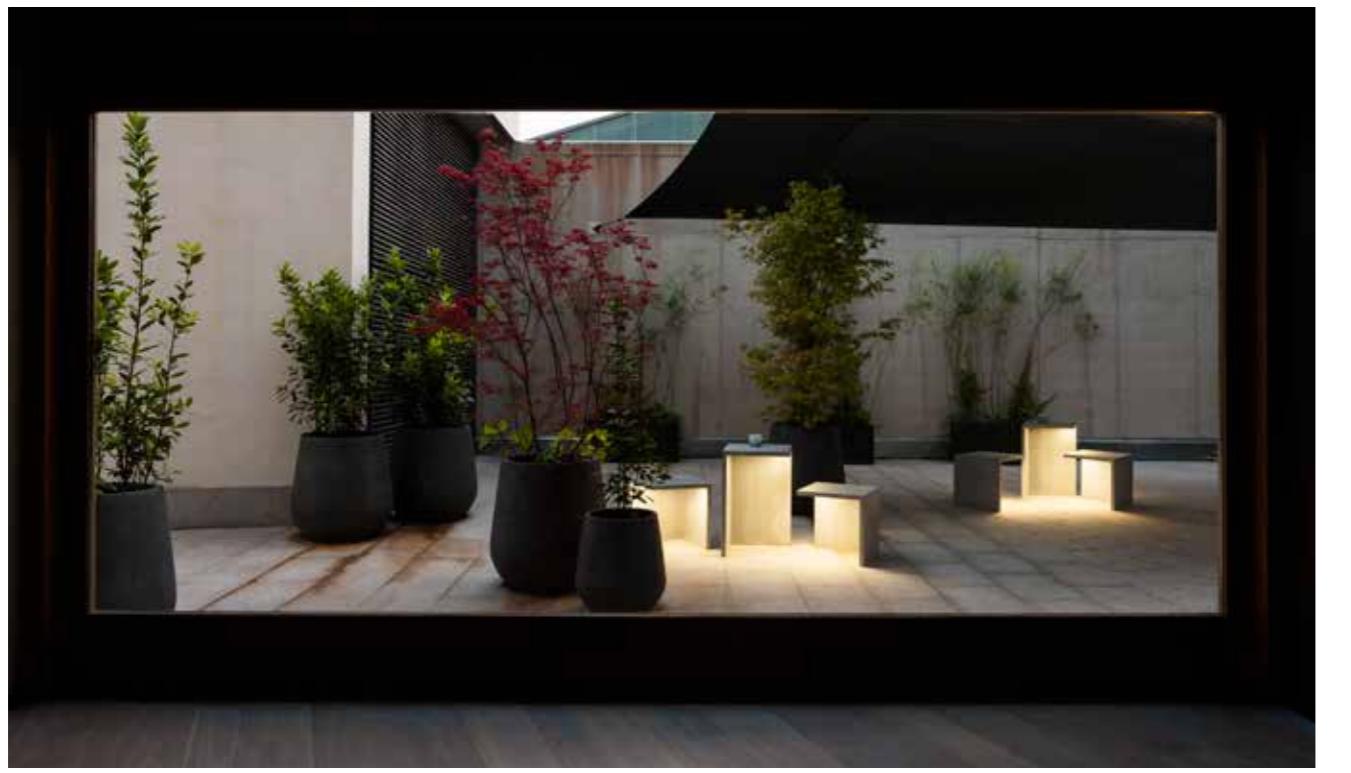

Empty can be completely integrated within outdoor spaces thanks to its clean silhouette and geometric lines, combining the functions of lantern and outdoor furniture, a catalyst for moments of relaxation and calm.

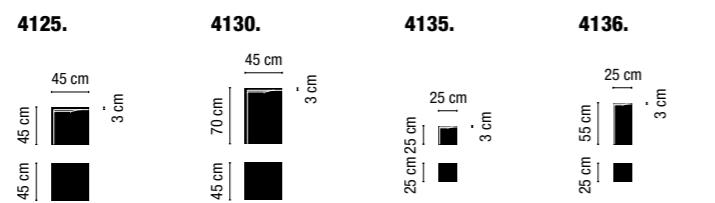

4130 18 /30. 4125 18 /30. 4135 58 /30. 4136 58 /30.

**CE**

Product complying with the EN60598-1 and EN60598-2-1 European regulation. /  
Producto que cumple la normativa europea EN60598-1 y EN60598-2-1.

**IP**

Level of protection. Electrical products are prepared to avoid solids and liquids from getting in contact with the electrical parts. Such resistance is expressed as IP followed by two digits: the first digit indicates the level of resistance to solid objects and the second one to liquids. The scale goes from IP20 to IP68. /  
Nivel de protección del producto. Los aparatos eléctricos están preparados para impedir la entrada y el contacto de cuerpos sólidos y de líquidos con las partes eléctricas. Esta resistencia se expresa mediante las siglas IP seguidas de 2 dígitos: el primero expresa el grado de protección a los objetos sólidos, y el segundo a los líquidos. Escala comprendida entre los valores IP20 y IP68.

**IP20**

Product protected against solid object as big as or bigger than 12 mm.  
No protection against water. /  
Producto protegido contra la penetración de cuerpos sólidos de tamaño igual o superior a 12mm. Sin protección al agua.

**IP64**

Dust-tight product. Protected against water spray. /  
Producto estanco al polvo. Protección contra las salpicaduras de agua.

**IP65**

Dust-tight product. Protected against water trickles. /  
Producto estanco al polvo. Protección contra los chorros de agua.

**IP66**

Dust-tight product. Protected against water sprays. /  
Producto estanco al polvo. Protección contra los chorros fuertes de agua.

**INSULATION CLASS / CLASE AISLAMIENTO**

**I**

Class I. Product with an additional protection cable (grounds). /  
Clase I. Aparato con un cable protector adicional (toma de tierra).

**II**

Class II. Product protected against electric shock having a double insulation. No grounds. /  
Clase II. Aparato con protección contra descargas eléctricas, basado en un doble aislamiento. Sin toma de tierra.

**III**

Class III. Product protected against electric shock based on a very-low voltage system. No grounds. /  
Clase III. Aparato con protección contra descargas eléctricas, basado en un sistema de muy bajo voltaje. Sin toma de tierra.

**FLAMMABLE SURFACES / SUPERFICIES INFLAMABLES**

**▽**

Product suitable to be installed on any kind of surface (EN 60598). /  
Producto apto para ser montado en todo tipo de superficies (EN 60598).

Product that CANNOT be in contact with normally-flammable materials (wood or others). /  
No está permitido que producto con este distintivo esté en contacto con materiales normalmente inflamables (maderas u otros).

**Bi-volt**

Valid for the range 110V-230V, 50-60Hz.  
Válido para el rango 110V-230V, 50-60Hz.

**CUT OUT / DIMENSIÓN DE CORTE**

**○ □**

Dimension of the cut-out. /  
Dimensión del alojamiento para empotrar.

**NO ELECTRONIC EQUIPMENT INCLUDED / EQUIPO NO INTEGRADO**

**☒**

The lamp does not include any electronic equipment (transformer, driver, ballast...). /  
La luminaria no incluye el equipo electrónico correspondiente (transformador, driver, reactancia...).

**INTEGRATED DIMMER / REGULADOR INTENSIDAD INTEGRADO**

**Dimmer**

Lamp has a integrated dimmer. /  
Luminaria que lleva incorporado el equipo de regulación de intensidad.

**LIGHT SOURCE INFORMATION / INFORMACIÓN FUENTE DE LUZ**

**CRI**

Color rendering index. /  
Índice de reproducción cromática.

**K**

Color temperature. /  
Temperatura de color.

**lm**

Lumen, unit of measurement of luminous flux. /  
Lumen, unidad de medida del flujo lumínoso.

**lm/W**

Light source performance. Relationship between the luminous flux (lm) and the power consumed (W) by the source. /  
Rendimiento lumínico de la fuente de luz. Relación entre el flujo lumínoso (lm) y la potencia consumida (W) por dicha fuente.

**ITEM / ARTÍCULO**

**Reference / Referencia**

1510	18	/1	B.
------	----	----	----

**Model / Modelo**

**Finish / Acabado**

**LED color temperature / Temperatura de color LED**

**Dimming typology / Tipo de Regulación**

4 digits /  
4 dígitos

2 digits /  
2 dígitos

1 digit /  
1 dígito

0 > Without LED / Sin LED  
1 > 2700 K  
2 > 3000 K  
3 > 3500 K  
4 > 4000 K  
5 > Push / Pulsador  
6 > Sensor

A > 1+3+5 (DALI + 1-10V + Push / Pulsador)  
B > 3+5 (1-10V + Push / Pulsador)  
C > 1+3 (DALI + 1-10V)  
Z > Smart \*

\* Smart refers to wireless dimming solutions.  
Ask for more information /  
Smart se refiere a soluciones de regulación inalámbricas. Pedir más información.
